

FCA General Contractor Bid Tool — Quick Start

Detailed proposal workbook with CSI divisions, bid terms, insurance, exclusions, and signature pages.

Sheet	Purpose
Bid Setup	Project info, validity, schedule, markups, tax, payment schedule, and base settings.
Estimate Builder	Builds detailed bid line items with materials, labor, equipment, subcontract, overhead, profit, and taxes.
CSI Summary	Rolls all estimate lines up by CSI division and shows bid total plus billing schedule.
Scope / Inclusions / Exclusions	Documents what is and is not included, plus assumptions and alternates.
Terms & Conditions	Provides proposal language expected in a complete GC bid package.
Insurance & Compliance	Records insurance, permit, and compliance position for the proposal.
Acceptance & Signatures	Provides acceptance and signature blocks for owner and contractor.

This product is designed to be a complete estimating and proposal template suitable for a general contractor sales workflow, not a generic one-page sheet.

FCA — Future Contractors of America | System before scale.
